

## CRISIS MANAGEMENT A One Health perspective

### PRACTICAL INFORMATION

**Dates and deadline for registration:** <https://ensv-fvi.fr/actions-internationales/international-training-dates/>

**Duration:** - 3 days preparation online work prior to the course  
- 5 days in-person instruction

**Location:** Partially online, partially in person; the 5-day in-person session will take place at ENSV-FVI\* (Marcy l'Étoile, France) and involve a field trip to Paris (DGAI, ANSES, OIE)  
\*May be adapted to a remote training depending on the sanitary situation

**Audience:**

- Veterinary Officers (e.g., government veterinary officials, administrators of veterinary institutions or agricultural organisations)
- Management staff from public or private organisations involved in public health responses

**Number of participants:** 10 to 20

**General organisation:**

**Vincent BRIOUDES**, ENSV-FVI  
[vincent.brioudes@vetagro-sup.fr](mailto:vincent.brioudes@vetagro-sup.fr)  
**Alizée CERDAN**, ENSV-FVI  
[alizee.cerdan@vetagro-sup.fr](mailto:alizee.cerdan@vetagro-sup.fr)

**Technical coordination:**

**Nathalie GUERSON**, ENSV-FVI  
**Guillaume GERBIER**, DGAI

**Speakers:** Representatives of the OIE, local and central veterinary services of European countries, risk assessment agencies, veterinary institutions of higher learning, relevant professional organisations.

**Languages of tuition:**

English (a good English level is required)

**Assessment method:** self-assessment

**Delivered certificate:** certificate of attendance

**Continuing education credits:** not applicable

**Fees:** 4,000€

The tuition fee does not cover living expenses in Lyon, travel to/from France, insurance coverage or visa fees. Living expenses in Lyon are ~ 100 € a day (for food and lodging).

*Need-based scholarships are available.  
Please contact us if you wish to apply.*

**Accessibility:** Field visits are scheduled. Specific adjustments may be arranged for people with disabilities.

**Registration:** A registration form is available on the website of ENSV-FVI <https://ensv-fvi.fr/actions-internationales/inscription-registrations/registration-form-residential-courses/>

### CONTEXT

The COVID-19 pandemic shows that efficient crisis management requires professionals with specific skills who can be quickly mobilised.

Health crises have major impacts and are complex to manage. It is necessary to properly structure efforts and organise all the key players with an influence on regional and national response effectiveness.

### PROGRAMME

**Main objective:**

To share operational knowledge and gain practical skills related to animal health crisis management. Participants will learn how to prepare for and manage crises, including best practices and effective communication.

**Learning objectives:**

By the end of the course, participants will understand the core principles of crisis management and will be able to:

- Propose an operational organization structure that connects all relevant organisations
- Identify key partners to ensure an efficient response
- Propose technical measures to deal with infectious disease outbreaks
- Know the main information to share when communicating with the public during a crisis

**Course Content:**

Presentations and feedback will provide participants with an overview of the different levels of action during a crisis.

This course is structured around four main axes:

- Organisation—a description of the interdisciplinary links between different government services
- Technical responses—first-hand accounts from government staff involved in the public health response during the ASF or AI crisis
- Partnerships—contributions from veterinarians, stakeholders associated with various public health groups, and laboratory representatives
- Communication—a description of the essential language elements needed when communicating with the public

The course has two parts:

- Three days of online work
- A five-day in-person session at ENSV

**Teaching methods:**

The online part of the course will take place via the VetagroTice platform and will include videos, slide shows, resource readings, and practical exercises.

During the in-person session, participants will share their experiences, attend lectures, and go on field trips.

**Prerequisites**

Minimum of 3 to 5 years of relevant professional working experience.
