ENSV-FVI INTERNATIONAL COURSES 2022-2023

Centre collaborateur de l'OIE
pour la formation des vétérinaires officiels
OIE Collaborating Centre
for the Training of Official Veterinarians

TRAINING OFFER

E-CERISE (online – Continuing Education for VeteRInary Services)

E-CERISE is a training for official veterinarians, granting an inter veterinary school diploma. The training is made of 10 mandatory modules; each module is opened during 3 weeks in e-learning. In parallel to their training, the students develop, under the supervision of a designated tutor, a personal project linked to a veterinary issue in their country, which gives rise to an oral presentation during the face-to-face session at the end of the course.
Tuitions fees: 8000€ (including one week face-to-face in France)

- All modules are available independently "à la carte"
- Module 0: Discover the World Organisation for Animal Health (OIE) is offered in addition to each module "à la carte"
  Tuitions fees: 800€

RESIDENTIAL COURSES

Residential courses are thematic courses in the veterinary domain. Based directly on OIE standards and recommendations, residential courses are aimed at both official veterinarians (senior veterinary officials, heads of veterinary establishments or agricultural organisations, etc.) and managers from the private sector (animal production, pharmaceutical and agro-industry). Built on a "One Health" approach, courses provides participants with a wide range of general and technical knowledge on global issues and current topics (animal health crisis management, antibiotic resistance, health surveillance and epizootic prevention etc.)

TRAINING ON DEMAND IS ALSO POSSIBLE

Please contact ENSV-FVI International Actions Service: training@vetagro-sup.fr
