### CONTEXT

The function of the leader is to ensure the cohesion of the group. The more the subjects increase and the social organisation becomes more complex, the more the need for a coordinator becomes apparent. Applied to the management of veterinary services, authority articulates different registers of action, first and foremost the authority of the law, but this is not enough. It is necessary to learn how to become a leader (what are the skills needed to lead people?), with the aim of increasing the power of action of the group, including in the context of intercultural approaches.

As Veterinary Services are expected to act as leaders in their areas of expertise, it is essential to invest in capacity building in the area of leadership to increase the quality of performance of Veterinary Services with the aim of better Global/One/Planetary health.

### PROGRAMME

#### Main objective:

At the end of this training, participants will have acquired knowledge and skills in operational leadership in veterinary services.

#### Learning objectives:

- Know the main concepts and definitions of leadership
- Acquire key leadership skills
- Visit and meet institutions and officials at local, national and international levels in matters of leadership in veterinary services.

#### Course Content:

- The different styles of leadership, difference between management and leadership, basic concepts in communication, etc.
- Scenarios or feedback on network animation, project management or change management.
- Case studies on the main characteristics associated with leadership in various professional situations associated with the veterinary domain.
- Feedback and interactions with various veterinary officials at local, regional and international level. Synthesis of the main lessons learnt.

#### Teaching methods:

Presentations, practical training based on case studies, working groups, sharing of experiences, field visits, European study trip.

#### Prerequisites

Minimum of 3 to 5 years of relevant professional work experience.  
Reasonable proficiency in English.
